**Join NEACSM Student Representatives, Maggie Morrissey and Luke Pelton, for a dynamic conversation about redefining professionalism in our field. This discussion will focus on how we can work together to create a more inclusive and diverse definition of what it means to be a "professional" in this field. Join invited speakers, Dr. Monica Hall-Porter, Mr. Daryl Nelson, and Ms. Joanna Harper as they share their experiences and answer your questions about being game changers in the workplace and beyond. This is a student only event.*
